

# Duct systems outside plant

## Wrap-around duct closure for pre-installed microducts

### APPLICATION:

With the wrap-around duct closure 2 or 3 HDPE ducts with pre-installed micro ducts or resident cables can be coupled. The closure provides enough space for the microduct connectors.

### FEATURES:

- Easy installation
- Wrap-around construction
- Space for microduct connectors
- No special tools required.

### MATERIAL:

The duct closure consists of a plastic ring casing in two parts and dividable glands.

The standard size is available for 50 + 40 mm HDPE ducts.

For smaller sizes of HDPE ducts a range of port reducers is available.
