

Duct system outside plant

Duct repair set dividable

APPLICATION:

With the dividable repair set a damaged protective duct can be repaired without interrupting microducts or cables in the duct.

The duct repair set is also capable to enclose a number of microduct connectors if both the protective duct and the microducts are damaged

FEATURES:

- Easy installation
- No interruption of microducts or cables in duct
- Small diameter

Repair set

CONSTRUCTION:

The repair set consists of two half shells and two duct couplings. The set provides an airtight connection between two duct ends

Tool

Components Repair set

Duct diameter	Repair set length	Packing	Ordering code
32 mm	2 meter	Piece	1014168
40 mm	2 meter	Piece	1014169
50 mm	2 meter	Piece	1014171

Components Tool

Duct diameter	Tool type	Packing	Ordering code
32 mm	KKHRG 32	Piece	1014172
40 mm	KKHRG 40	Piece	1014173
50 mm	KKHRG 50	Piece	1014174

Remark: The assembly tool required to close the two half shells shall be ordered separately.
